

10 November 1984

Dear Kelly + John,

How are things in the resort community of Tuckie Village? I've been thinking of John a lot lately - I've had a cold - doing anything is so damned difficult when you can't breathe. I hope he is finally over his cold - mine seems to have moved in permanently.

Wayne + I are doing, actually, as well as we have since we've been in Japan. We are ~~as~~ ^{on} the same schedule now, a first. We hired two eleven year olds to walk the dogs for us, during the day + it's working out beautifully. The boys + dogs love each other + Wayne + I don't have to feel guilty about working a full day or stopping on the way home. The weather has been beautiful after that one snow, so we have started playing after that one snow, so we have started playing funnis. Actually, he plays, I chose. Oh well, I've sure golf was humiliating for him, too. We can be even. We are also still deep into darts. Wayne is getting better by leaps + bounds, but I was actually getting worse, but I had a break through about 2 days ago + am improving. It is a fun game - will have to go out + shoot when we get home.

We're ~~started~~ starting to get excited about going to Hong Kong. Write + let us know what, if anything, specifically, you want us to pick up - especially glasses.

Love,

Donna
